Congratulations on your forthcoming wedding and thank you for your enquiry.

I give a brief description of my services in this brochure, but at the heart of what I provide is a highly personalised service – it's your day! Call me to arrange a free no obligation home visit where I can show you copies of real albums and discuss your requirements in detail.

If you have access to the Internet you can also get more information from my web site at www.WeddingShots.co.uk

All Day Photography

Before The Wedding

Shortly before the big day we have a pre-wedding meeting to discuss the photographs you want me to take on the day. This can be any mix of formal and informal shots to suit both traditional and modern tastes. I will visit the ceremony and reception venues with you to plan how to get the best photos at each location.

Web Cards

As part of my service I provide 100 business cards showing a pre-wedding picture of the bride and groom on the front and details of the proofs password on the back. These are for your guests to take home from the reception.

On The Day

Working from your list of "must have" photos that you provided at our pre-wedding meeting, with no restriction on the number of photographs taken, we start at the Bride's home, continuing inside and outside the ceremony and reception venues, and even on location if required.

Proof Booklet and Disc of Images

After the wedding you will receive a proof booklet containing small images of all the photographs together with a DVD disc containing copies of all your images in both colour and black and white. This is usually within 7-10 days.

Online Gallery

A set of your wedding photos will be displayed in a password protected online gallery on my website for at least 6 months. This allows relatives and friends to see them without delay and they can order their own prints online.

Taster Movie

I produce a 2-3 minute Youtube video slideshow containing a small selection of the day's images. This is available to view on my Facebook page and a copy is included on your disc of images.

Orders for albums and prints can be made at any time with payment due when you place your order.

Pre-Wedding Shoot and Signing Frame

We arrange a photo shoot of about an hour at a suitable venue. From these photos you choose one for your signing frame, which is a 20"x16" frame containing a 10"x6" photo. Guests write their messages on the overlay at the reception. After the wedding you can replace the photo with one from the wedding day itself.

All the images from the photo session are included on your disc and online gallery. This service costs £100

Album Design Service

If you are already married and have a disc containing your wedding images, you can use my expertise to make a wedding album that you'll treasure forever. These albums cost exactly the same as albums produced from my own photographs.

From time to time I introduce money saving special offers. See my website to find out what current offers are available.
